EMBEDDED GROWTH TEAM

WHO WE ARE

We don't brief you on decks. We build your pipeline.

Cactus embeds with B2B AI SaaS startups as a full-stack growth team, running inbound and outbound under one roof. No agency handoffs. No vanity metrics. Just qualified pipeline delivered to your calendar. We rebuilt everything from the ground up with AI: outbound, inbound, content and CRM workflows. Enterprise-grade output at startup speed.

WHAT WE DO

INBOUND **GET FOUND & CONVERT**

SEO & CONTENT MARKETING

Compounding organic traffic from buyers actively searching, optimized for Google, ChatGPT, Perplexity and AI search.

PAID ADS (GOOGLE & LINKEDIN)

Precision B2B SaaS campaigns targeting decision-makers by title, company, and intent signal. Built to drive demos, not clicks.

DEMAND GENERATION

Multi-channel demand gen across content, paid, email and partnerships. Architected to build lasting pipeline, not spikes.

OUTBOUND **BUILD & FILL PIPELINE**

SDR & COLD CALLING

Human SDRs powered by AI. ICP research, real conversations and qualified meetings booked to your calendar.

EMAIL OUTREACH & SEQUENCING

AI-personalized cold email at scale. Deliverability, copy and timing all handled. Replies go straight to your team.

LINKEDIN & LEAD GEN

Targeted LinkedIn outreach, connection sequencing, and verified lead lists pushed directly into your CRM.

GOOGLE RATING

"We were pre-launch and needed to build real pipeline fast. Cactus embedded with us, built our entire outbound motion from scratch, and drove so many qualified conversations that we had to bring on additional staff just to keep up."
